Is it possible to do the same in the solr server? If yes then please guide me how to do it (or if it is possible also point me to a link or a tutorial). A: Apache Solr doesn't have a built-in formatter for expressing an MDX query, you'll have to write one yourself. Read up on Solr's internal format, it's really simple, once you have some idea of the Solr syntax, it will be pretty straightforward to write your own. 1. Field of the Invention The invention relates to a wave wheel device. 2. Description of the Prior Art Wave wheel devices are used as damper devices, in which a valve plate is moved out of a housing. Such damper devices consist of a housing, which is formed by two housing halves or side walls, and a valve plate which is movable relative to the housing. The valve plate in the damper device is moved out of the housing by means of a wave wheel. EP-A-0 536 605 discloses such a wave wheel device. The device shown there is a friction damper having a housing, which is formed by two housing halves, and a valve plate which is displaceable relative to the housing. The valve plate is divided into two valve plate portions which are connected to one another by a leaf spring and 82138339de
