Features added in version 3.1.0 - Added possibility to record SMS - Added new VOIP-option - Remove of removed Button 8,9; How to use your phone number In the sourceforge project you will find all files of this new release. Regards and Enjoy, Henk Download Version 3.1.1 Download Version 3.1.0To test the hypothesis that the distribution of fusion proteins in cells can reveal the cellular functions of individual transcription factors, we have compared the distribution of regulatory proteins in cardiomyocytes and fibroblasts. Preliminary data show that the transcription factor Nkx2.5 exhibits a graded distribution in early embryonic cardiomyocytes that is distinct from the distribution in fibroblasts. For example, Nkx2.5 is barely detectable in the nucleus of undifferentiated ES cells and its cytoplasmic distribution is diffuse and punctate, but it becomes much more prominent as ES cells begin to differentiate. Thus, Nkx2.5 forms a gradated distribution that reflects the commitment of ES cells to differentiate
